**Education Committee**

Lisa Weishoff reported that the education committee has gone over the survey that was sent out to everyone to ask what upcoming events they would like to have. From that information it was decided that the education committee will hold one day events throughout the year and in the spring will hold the Spring Education Seminar with multiple classes being offered at a more formal setting.

**Outreach Committee**

Chris Garcia and Laurie Wilson reported that they have been working very hard at getting the word out about the different career opportunities in the building code fields. They have been going to the schools and speaking with the instructors to see if the instructors would be interested in establishing the program ICC is putting out that is the ICC 2.0 program. Even in the best situations it seems as though this program is very advanced and at this time it is way too much work to try to get it established. They are changing gears and will still promote Building Safety Careers but will concentrate more on the Career Day events. Thanks for all of your hard work.

**Website Committee**

The website committee has also been very hard at work and the website is up and running. Go check it out. They have also been looking into PayPal and there will be more to come on that at our next meeting.

**New Business**

**Wendy from the State of Oregon was at our meeting and gave us the following updates:**

- 1. OIC Renewal information. This is a requirement for everyone since BCD will be updating their records in their new system.**
- 2. No OMSC code change class. Not enough is changing to hold a class.**
- 3. Code books will be printed mid-October.**

4. There are sample ordinances that are in the Fire Code for jurisdictions that want to write ordinances for the additional code adoptions for things that were taken out of the code.

**Motion to Adjourn**

**Motion to adjourn approved.**
